Airline Pilot and Software Developer with more than 5 years of experience and across multiple airplanes and platforms, reliably delivering passengers, cargo and software to their destinations and customers.

Experience

May 2042 - Present

Philippine Airlines | *Ninoy Aquino International Airport, Pasay City*

Senior First Officer

Airline Transport Pilot (ATP); operating and flying jet aircraft domestically and internationally.

Completed 5500+ flight hours, including 550 nighttime hours and 700 x-country hours

Oversees training and certification of other pilots as they ascend through the ranks

Determine fuel loads, weight and balance, take-off, and landing numbers for each flight considering the status of aircraft systems.

Communicate with dispatch to determine the best and most effective routes.

Reliably deliver communication with crew members, the captain, and the passengers to ensure departure/arrival times are met.

Work through in-flight emergencies in an appropriate manner to achieve a successful outcome.

May 2038 - April 2042

Philippine Airlines | *Ninoy Aquino International Airport, Pasay City*

Junior First Officer

Ensured passenger safety and health standards are maintained throughout the flight in view of the airline regulations and international policies.

Supported the Pilots in Command in performing full piloting duties when necessary.

Communicated properly with airline personnel, cabin crew, ground personnel and flight captain.

Conducted checks on navigational and operational equipment, fuel levels and communication tools to assure issue-free flights.

December 2035 - April 2038

Philippine Airlines | *Ninoy Aquino International Airport, Pasay City*

Limited First Officer

Prioritized safety of the aircraft, including its crew, cargo and passengers, in compliance with the Captain's orders, company policies and International Regulations.

Provided the captain with detailed planning for each flight flown, including all other operational factors like weather information
